

CLIVAR

FY 2002 Information Sheet

Due to budgetary limitations, the CLIVAR Atlantic, CLIVAR Pacific, and joint PACS/GAPP program elements are not inviting applications for new projects under this announcement. Interested investigators should apply in response to the next announcement, expected to be issued in February, 2002. CLIVAR Pan American Climate Studies (PACS) will be inviting proposals to implement the special observing period of the South American Low Level Jet field experiment. For information on the experiment, please refer to the Americas Low Level Jets (ALLS) scientific prospectus and implementation plan.

For further information on CLIVAR-Atlantic, please contact James Todd, NOAA /Global Programs, 301/427-2089 ext. 139, Internet: james.todd@noaa.gov. For the CLIVAR-Pacific and the Pan American Climate Studies (PACS) efforts, please contact, Michael Patterson, NOAA/Global Programs, 301-427-2089 ext. 102, Internet: michael.patterson@noaa.gov.
